RE: Sauget Area 2

Deliver by Overnight Mail

Dear Nabil:

Please be advised that Solutia is notifying the EPA that Gary Vandiver will replace me as Project Coordinator under our Sauget Area 1 Administrative Order (Docket V-W-99-C-554).

You may have heard that I will be transferring to a new position within the Solutia Public Relations Group. I will still be involved with the project helping maintain the open dialogue with the community and all local, state and federal agencies. I look forward to working with you in that capacity.

Gary Vandiver is well qualified to fill the Project Coordinator role. Gary has over 28 years of plant, engineering, project management, and remediation experience with Monsanto & Solutia. He managed and successfully completed the remedial construction at the Motco Superfund Site in Texas.

Any questions please advise.

Sincerely,

Alan Faust
